ISSUES DISCUSSED:

- Existing training programs
- Impacts on Eastern Oregon businesses
- Legal definition of electric vehicles in Oregon statute
- Electric Vehicle Charging Association's position on bill

EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

Over the course of the next five years, the Oregon Department of Transportation (ODOT) is projecting to invest \$100 million from both federal and state sources to increase electric vehicle (EV) charging infrastructure. According to ODOT, the funding will focus on charging infrastructure for light-duty EVs such as cars, SUVs, and trucks. Approximately two-thirds of the funding is from the 2021 Infrastructure Investment and Jobs Act which requires that the funds be spent on EV charging infrastructure along "Alternative Fuel Corridors," as per guidance from the Federal Highway Administration. The remaining portion of the funding is to be focused on EV infrastructure gaps beyond the Alternative Fuel Corridors. In September, the federal government approved Oregon's National Electric Vehicle Infrastructure Plan.
