- Federal tax law changes regarding state and local tax deductions (SALT)
- Overview of SALT workarounds adopted by Oregon and other states (workaround is the PTE-E tax and credit)
- Introduced version of study bill being replaced.

EFFECT OF AMENDMENT:

Replaced content of measure.

BACKGROUND:

Prior to tax year 2018, individuals who itemized their deductions on their federal personal income tax returns were allowed to deduct (with some phase-out limitations) their state and local taxes (SALT) - primarily property taxes and either income or sales taxes. In 2017, Congress enacted the Tax Cut and Jobs Act and limited this deduction to \$10,000 for tax years 2018 through 2025. Following the federal SALT limitation, a majority of states enacted legislation intending to workaround the federal limitation by imposing a tax on a pass-through entity (where the tax is deductible from federal tax) and providing a related personal income tax credit for the owners of the pass through entity. These state SALT workarounds provide a means to reduce a taxpayer's federal income tax liability while making no change in net state revenue.

Oregon enacted its own SALT workaround in 2021 with the passage of SB 727 which established Oregon's pass-through entity elective tax (PTE-E) and related personal income tax credit. Under current law, Oregon's PTE-E tax is applicable to tax years 2022 and 2023 and provides a mechanism in which to reduce federal income tax liability for taxpayers while resulting in no net change in Oregon revenue. Measure as amended extends the applicability of Oregon's PTE-E tax and related credit to include tax years 2024 and 2025.
