**A BILL FOR AN ACT**

Relating to housing; and prescribing an effective date.

Whereas providing sufficient housing to people currently experiencing homelessness in Oregon would require the production of 29,000 additional units annually within this state; and

Whereas the lack of an adequate supply of housing disproportionately disadvantages and burdens households that are Black, Indigenous, People of Color, low-income or otherwise historically disadvantaged; and

Whereas an analysis from the Office of Economic Analysis of the Oregon Department of Administrative Services estimates that in order to address this state’s existing housing shortfall, local governments will need 400 to 500 additional professional planning, public works, and building staff to review and approve the needed housing; and

Whereas local governments are under significant financial and staff capacity constraints; and

Whereas the timeliness of the local government residential building permit review and approval processes is an identified constraint on the production of housing in this state; now, therefore,

Be It Enacted by the People of the State of Oregon:
