11 “(a) To provide financial and other assistance, including but not limited to loans and grants, to
12 municipalities, ports and other persons and entities in accordance with the laws governing use of
13 moneys in the Special Public Works Fund created by ORS 285B.455, the Water Fund created by ORS

19 “(c) To fund Oregon’s share of the costs of studies and ecosystem restoration projects in the
20 lower Columbia River estuary designed to improve habitat for listed endangered or threatened spe-

22 “(2) The use of lottery bond proceeds is authorized based on the following findings:

23 “(a) The financial and other assistance to municipalities, ports and other persons and entities
24 will assist in the establishment and expansion of businesses in Oregon and in the construction, im-
25 provement and expansion of infrastructure, community and port facilities and other facilities that
26 comprise the physical foundation for industrial and commercial activity and provide the basic
27 framework for continued and expanded economic opportunities and quality communities throughout
28 Oregon.

29 “(b) The Columbia River channel deepening project is necessary to allow newer, larger
30 steamships access to Oregon and Washington deep draft ports. A deeper shipping channel will allow
31 the Columbia River to continue as a world leader in agricultural exports and as a key trade corridor
32 for farms and businesses throughout Oregon and the region.

33 “(c) Such financial and other assistance to municipalities, ports and other persons and entities
34 and the deepening of the Columbia River channel will therefore promote economic development
35 within this state, and thus the use of net proceeds derived from the operation of the Oregon State
