10 million may be transferred to the school fund when the amount of moneys
11 credited to the road fund under subsection (1) of this section exceeds the
12 amount needed for county roads, as determined by the board of county com-
13 missioners. Any amount received by a school district from the school fund
14 of the county [*that is in excess of the 25 percent required under subsection (1)*

23 excess of an amount specified by the county governing body may be trans-
24 ferred to the school fund of the county or may be transferred directly to the

30 the condition that any school district receiving a share of such moneys must

1 use the moneys only for a purpose described in ORS 328.205 (1)(a) or (c). Any
2 amount received by a school district from the county under this subsection
3 [*that is in excess of the 25 percent required under subsection (1) of this*

7 of this section, in any county east of the summit of the Cascade Mountains

10 between the road fund and the school fund of the county as specified under
11 an agreement between the county governing body and the education service
12 district board of the county that provides for a different apportionment of
13 those moneys. Any amount received by a school district from the school fund
14 of the county [*that is in excess of the 25 percent required under subsection (1)*
15 *of this section*] may not be considered as a receipt that would reduce the
16 district’s apportionments from the State School Fund.

17 “(6) Notwithstanding the division of receipts specified in subsection (1)
18 of this section, in any county west of the summit of the Cascade Mountains
19 with a population of less than 19,500 and more than 6,500, according to the
20 1990 federal decennial census, moneys from the road fund in excess of \$1
21 million may be transferred to the school fund when the amount of moneys
22 credited to the road fund under subsection (1) of this section exceeds the
23 amount needed for county roads, as determined by the board of county com-
24 missioners. Any amount received by a school district from the school fund
25 of the county [*that is in excess of the 25 percent required under subsection (1)*
26 *of this section*] may not be considered as a receipt that would reduce the
27 district’s apportionments from the State School Fund.

28 “(7) As used in subsections (3) to (6) of this section, ‘summit of the Cas-
29 cade Mountains’ has the meaning given that term in ORS 477.001.

30 “(8)(a) Notwithstanding the division of receipts specified in subsection (1)

1 of this section, the moneys that would otherwise be credited to the road fund
2 of a county under subsection (1) of this section may instead be credited in
3 accordance with this subsection.

4 “(b) Upon request of the governing body of a county, the Oregon Depart-
5 ment of Administrative Services shall credit the moneys described in para-

11 “(C) A service district for roads established under ORS chapter 451.

12 “(c) Moneys credited to a public body under this subsection shall be used
13 in the same manner and subject to the same restrictions as would have ap-
14 plied to the moneys in the hands of the county that made the request under
15 paragraph (b) of this subsection, including, but not limited to, the require-
16 ments of ORS chapter 368 related to the use of moneys in a county road fund.

17 “(d) The governing body of the county may request that the department
18 discontinue crediting the moneys to the public body at any time. Not later
19 than 30 days after receiving a request under this paragraph, the department
20 shall resume crediting the moneys in accordance with subsection (1) of this
21 section.
