

Submitter: Lori McElmurry

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB502

Increasing the cost of living in Oregon and keeping the extra money we have supplied as citizens is unconstitutional in Oregon law. There is so much waste in the Oregon government budget. A continuation of giving taxpayer money away to noncitizens and throwing money at problems created by the government, very little comes back to citizens that have paid into the system. This is ours.
