

Submitter: Brandon Olander

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB774

Oregon tax rate is already onerous on the public. There is significant waste and lack of results with current collections. Removing the Kicker will unduly punish the public for the legislature's lack of oversight and effectivity. Receiving the kicker helps to make up for the large amount paid in taxes. If the kicker is removed, there is no way I could continue voting for democrats for local office. State, county, and city taxes are becoming too burdensome
