The kicker refund was put in place to protect the Oregon citizens from over taxation and it is an absolute insult that anyone would look to cancel refunding us the overpayment of our taxes we paid. We are not a blank check for the government to keep taking money from for no specified purpose. The state has a budget and if we were overtaxed then we deserve that money back without exception. Stop trying to act like the state deserves to keep that money and give it back to the citizens that you are supposed to represent.
