

Submitter: Brent Royce

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SJR26

Please return our tax money to the people that pay taxes. Just seeing that you are trying to reverse this bill supports the communities feelings on how this state is being ran. This city is covered in trash and homeless camps now. The Rose City has turned into homeless city. The City Of Portland has shown us we are not valued as tax payers time and time again. Inflation is approaching 10%, rent has considerably been increased while wages have only decreased so businesses can cut costs to try to stay open. Haven't you all done enough damage to this community???? Send us our money back please!
