

Submitter: Stacie Camou

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB502

My name is Stacie Camou I'm a resident of beaverton Oregon and mother to 3 young adults. These upping adults are all learning about taxes and paying into the system. Taxes are paid based on a budget and votes that we've agreed to pay into. If we go over that amount the state has taken money and earned interest on money that is rightfully the tax payers. We should be seeing a bill that says not only should the kicker come back but interest should be paid to each Oregon tax payer. When we're over pay taxes and receive a refund we then have to claim that as income on our Oregon taxes the following year. So we're penalizing people for over paying them not giving them their money back when the state takes more than they "need" please give us our extra money back even \$70 can help the lower income earners! And belittling that amount is unfair to those payers!
