

Submitter: Natalie Thorp

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SJR26

Where does it end? You just keep taxing and taxing and it never ends! Half of my paycheck goes to taxes. NO MORE! Stop wasting the money you have. Plug the significant number of pots that are being stolen from by random special interest groups or politicians. I am sick of this. We fought and separated ourselves from England because of overtaxation that was significantly less than what is happening today. Use what you already steal from us in a more reasonable and responsible manner. How dare you think you are entitled to more.
