

Submitter: Sheila Dooley  
On Behalf Of: Friends of the Waldron Brothers Drugstore  
Committee: House Committee On Rules  
Measure: HB3414

Please oppose HB 3134 as it threatens Oregon's historic heritage by removing local protections for historic buildings. Without these protections, development will be guided solely by those out to make a profit.

In the nearly 50 years that I have lived in the eastern Gorge, I have seen the loss of many historic buildings in The Dalles. Only in recent years has there been a real effort to save the remaining ones.

As development pressures continue to increase, the result could be the loss of what little remains if HB 3134 passes.

Please help protect our remaining heritage by voting no on HB 3134.

Thank you,

Sheila Dooley and Phil Swaim
