

Submitter: Kelsey Grout

On Behalf Of:

Committee: House Committee On Rules

Measure: HB3414

To honor our past visionaries who made the State of Oregon the livable state that is, please vote NO on HB 3414. To expand our boundary line makes no sense because the bottom line is we do have the land INSIDE our boundary. Yes, it is more complicated to build inside the boundary but that's where creative legislation comes into play by providing the essential leadership to turn this under utilized land into housing and not into infrastructure. Please think outside the box and join our past visionaries in doing our utmost to preserve the land we have been so fortunate to inherit. Thank you, Kelsey Grout
