

Submitter: Diana Yates  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB3414

Give some real estate developers an inch and they keep on inching. A one time expansion for cities plays to that beat which we have seen before. We either support farming or we continue to pave over the earth. This template is archaic and only supports corporations, in spite of its guise that it supports the people. Farmland is our precious commodity. Let's not go backwards!
