

***Why don't the supporters of [HB 3409] volunteer to go to Canada and extinguish forest fires?**

Coal fired power plants in China / India should face 100% tariffs to encourage alternative power sources.

[HB 3409] contains some very good ideas and I applaud those who participated in the construction and analysis in the aforementioned "FISCAL IMPACT OF THE PROPOSED LEGISLATION."

[HB 3409] serves the expansion of government and is an enormous waste of taxpayer dollars.

Unfortunately, [HB 3409] will not save the climate or even make a dent in the perceived problem.
