

Submitter: Jeff Maddress

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB2004

I support ranked choice voting. In past elections with our two party system I have had to bypass my first choice because of a "wasted vote". Wasted on a candidate who identifies as neither democrat or republican, and is the best choice for changing the present political environment which represents gridlock. We need a first, second and even third choices for public office.
