

Submitter: Eric Humphreys

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB2004

Seeing the improved voting structures and results in other countries and states that have implemented ranked choice voting shows great promise for us here in Oregon. This is also a great step to include another state and get us closer to federal ranked choice voting.

More importantly, in our current two party system, this allows voters to feel like they have greater choice in who they can vote for without fear of giving votes to the other side.
