

Submitter: Robert Zweig
On Behalf Of:
Committee: Senate Committee On Rules
Measure: HB2004

People in a democracy deserve to be able to choose representatives without having to worry about voting strategically or a third party "spoiler effect." They deserve to be able to choose who they actually WANT as opposed to just who they think has a chance to win and is the least unfavorable. Ranked choice voting is one way to eliminate these problems and stands to substantially increase voter engagement and satisfaction with our elections.

I strongly support HB 2004. The people of Oregon deserve to have ranked choice voting.
