Committee: Senate Committee On Rules

Measure: HB2107

NO on HB 2107, The DMV already has the task of automatically registering people to vote. We don't want more government agencies involved in registration. Our personal data is already at risk of being hacked and used by malevolent people through hacking of the DMV. People should never be "AUTOMATICALLY" registered, it should be a willful choice by a person with full knowledge and cognizance of their actions.
