Committee: Senate Committee On Rules
Measure: HB2004

I oppose House Bill 2004. Allow legally eligible registered voters to vote for the individual whom they choose. This bill allows votes to be shuffled around like a shell game and results only in chaos and confusion. This will only further the downward spiral of lack of trust in our voting system and in those whom are running the "game." It only arouses suspicion in the system that declared a "winner" and in the "winner" him/herself. VOTE NO on HB 2004.
