Measure: HB2004

I am opposed to this bill; people of Oregon have a constitutional right to have their individual votes counted towards the candidate of their choosing. Electing a candidate needs to be left in the hands of the voters and not using some made up equation that is supposed to create some "fair" voting system. Let's keep it as the people vote and choices are clear no need to backtrack because some calculation was off. Politics is complicated enough to ensure honesty and transparency from candidates let's not add another obstacle for voters to attempt to navigate.
