

Submitter: Tamara Hamilton
On Behalf Of:
Committee: Senate Committee On Rules
Measure: HB2004

I'm disgusted that rank choice would even be considered. Our Founders have to be rolling in their graves. Vote by mail destroyed much trust in our voting system. Now this. This is a confusing and ridiculous system that is frankly disguised discrimination. It puts older voters or those who don't understand a complex voting system at a disadvantage which appears to be the intent here. Not surprising for what appears to be corrupt OR politicians facing questions. The electoral college MUST stand and a straight up or down traditional voting system is what is fair and expected. Not an algebra equation no one can solve that's intentionally designed to confuse and disable stability. The only comfort I take is that with each of these new "improvements" shoved down Oregonians throats instead of facing and fixing real issues, you're enraging even your loyal base. Change is coming but it won't be from rank choice voting.
