Measure: HB2004

Dear Legislators,

I'm writing in strong support of HB2004 to allow ranked choice voting. In my long life there have been so many times I had to vote for a candidate who was absolutely not my first choice because I was afraid if I voted for my first choice I would split off voters and end up with a candidate I was strongly against. Let's see what the Oregon people really want and start ranked choice voting now.
