Measure: HB2004

I am opposed to ranked choice voting because it would hurt minority voters. Most supporters for RCV believe it gives voters more opportunity to vote for minority candidates, in all reality that doesn't work that way.

A minority party voter would vote for their candidate first then a majority party candidate 2nd.

A majority party voter will vote for their majority candidate first.

The minority candidate wont get the votes needed and would result every time in majority candidates getting the most votes.

Please do not pass HB 2004
