

Submitter: Annah Atwood

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB2004

I am completely bewildered that our senate believes that changing our voting system is a good idea. Our current voting system is the most fair and best choice we have. While half of Oregonians feel like we don't get a say in what happens in our state, I would rather have the chance to have a say, than leave everything up to some algorithms that can probably be altered to favor one side more than another.
