

Submitter: Michael Miller

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB2004

I'm strongly in favor of rank choice voting to give the people of Oregon better choices in their elected officials. I believe that this will encourage those running for office to broaden their appeal to more voters. My hope is that it will also encourage more independent and "middle of the road" people to run for office. Long term, I think that it will help voters who feel disenfranchised to be heard and feel heard by their elected officials, even if they didn't vote for them as their first choice.
