

Submitter: Keef Bosley
On Behalf Of:
Committee: Senate Committee On Rules
Measure: HB2004

I support HB 2004 because we as citizens deserve to have each of our choices honored and used. We should no longer be in a two-party monopoly, each person should get to vote for what party they actually want, without worrying about always losing. Please vote yes on ranked choice voting, it makes voting better and more accessible for everyone.
