

Submitter: Denise Boivin

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB2004

Ranked Choice Voting is a system that's too complicated to explain and use. It has been shown in other places to have lower voter turn out rates. Exhausted ballots silence the voice of significant portions of the voters. It is also unnecessary. Our current system of voting has not shown a need to switch to RCV. Just say NO to RCV.
