

Submitter: Brenda Carter

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB2004

I used to do a lot of voter turnout work. The number one reason some people won't even register to vote is that they feel their vote won't count. Ranked choice voting will ensure that everyone's vote matters. It is not confusing, even grade school children can understand the fairness of using it.

Please please let Oregon lead the way into the future, and revolutionize the electoral process by passing HB 2004 out of committee.

It at least deserves a spirited public debate!

Sincerely,

Brenda Carter

Patriotic voter since 1981
