

Submitter: Biff Schlicting
On Behalf Of:
Committee: Senate Committee On Rules
Measure: HB2004

Ranked Choice Voting just makes good sense:

- Better quality and more representative candidates and public servants
- Encourages more civil, constructive and productive campaigns, driving more participation
- Steers away from the 'Us vs Them;' environment created by the limited, extreme and skewed options of a two party dominate system
- The public ends up with a more broadly acceptable public servant, and often, even if their preferred candidate does not win

Let's move Oregon forward toward a more intelligent, fair and sensible election system.

I encourage legislators to support Ranked Choice Voting.

Thank You!
