

Submitter: Sharon Waterman

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2203

If you have ever had your barn broken into, equipment and primary farm truck stolen or you caught a person siphoning diesel from your equipment, you know why this bill is being proposed. It is of great importance to the agriculture industry that the use of recreational vehicles are allowed to provide on-site security during harvest or when the community is being targeted by theft and vandalism. The forestry industry is allowed to do this and our forestry neighbors have recreational vehicles on-site for security of their equipment during the harvest season. It is only reasonable that agriculture be able to do the same. I support this legislation including the proposed amendments (HB 2203A).
