On Behalf Of: Mr Oregon Opposes HB 2052
Committee: House Committee On Business and Labor
Measure: HB2052

Wednesday [01.18.23]

I OPPOSE [HB 2052]...as written...

Whereas the concept of registration of Data Brokers is a very good idea...forbidding Data Brokers from conducting any business whatsoever in Oregon is a Great Idea.

There is way too much personal information floating about the ether and who knows what other sources that can be; collected, stored in databases, analyzed and sold to others for who knows for what purposes.

The exemptions listed in [HB 2052] make it all too easy for Data Brokers to search and collect public records data and then sell this data to anyone.

The fines listed in [HB 2052] are too little to ensure deterrence and or punishment. The 'fines and punishments' should be designed to hurt financially and with stiff jail sentences.

Mr. Oregon Concurs..."Don't tread on anyone's data."
