

Submitter: David Wall
On Behalf Of: Mr Oregon is Neutral
Committee: House Committee On Business and Labor
Measure: HB2290

Wednesday [01.18.23]

I AM NEUTRAL ON [HB 2290].

[HB 2290] is a good idea and I am supportive of its' concept however...there is a lot of personal data being combined in cross referencing databases and the security measures are not fully discussed.

Concerning the databases used in the construct and operations to address [HB 2290]...are they immune from 'Hackers" foreign and or domestic?

Public Records containing personal information will undoubtedly be part of the personal information collected and utilized. How will Public Record information containing personal data be protected from Public Record Requests?

David S. Wall

Mr. Oregon Concur...good idea but iron-out the security concerns.
