

Submitter: David Wall  
On Behalf Of: Mr Oregon Supports SB 316  
Committee: Senate Committee On Judiciary  
Measure: SB316

Thursday [01.19.23]

I SUPPORT [SB 316].

I would like to congratulate the Legislative Staff Members who were charged with performing the tedious but necessary work to, "Makes nonsubstantive and technical changes in Oregon law."

[SB 316] has [53 Sections of Legal Text] contained in [54 pages].

Have the aforementioned 'changes' been forwarded to the relevant Senate, House and Joint Committees?

For example: Section 27 concerns 'Residential Care Facilities', Section 28 is concerned with 'Child Abuse'. Have the changes in Oregon Law been communicated to the Senate Committee on Healthcare and Human Services, the House Committees on: Behavioral Health and Health Care and Early Childhood and Human Services, The Joint Ways and Means Committees of: Human Services and Public Safety?

Section 44 and Section 45 are concerned with Agriculture. Has the House Committees on: Agriculture, Land Use Natural Resources and Water, Economic Development and Small Business; The Senate Committee on Labor and Business and the Joint Committee on Transportation and Economic Development?

I hope the examples were helpful in the task of sorting and referring all [53 Sections] to the appropriate Senate, House and Joint Committees.

Again, Good Job Legislative Staff Members!

David S. Wall  
Mr. Oregon whole-heartedly Concurs!
