

Submitter: Josie Alexander
On Behalf Of:
Committee: House Committee On Education
Measure: HB2281
Education Committee

I urge you to focus on EDUCATION. Oregon school districts are far too top heavy with admin. HB 2281 is another non-educational unnecessary program . Please vote NO

83% of school funding in the Portland & Salem-Keizer school districts is spent on staff salaries & benefits

According to Centers for Education Statistics US Dept of Edu the percent growth from 2000-2019—students 7.6%, teachers 8.7%, district ADMIN 87%!!!

Putting “civil rights coordinators” in schools only adds more admin , nonsense layers, & confusion when there is already established policies! School districts already comply with federal & state civil rights laws. Where is the evidence that schools are not enforcing state non discrimination laws?

Our state’s fourth- and eighth-graders performed among the worst in the country on math tests given to a representative sample of students nationwide and were below average in reading. But per usual go ahead & do the cool social justice flexwe’ve got to continue to make national news for something
