Committee: Senate Committee On Human Services
Measure: SB573

I have proposed this SB 573 to include parentage on my Original Birth Certificate. My father is now know and my Original Birth Certificate Is blank. This Vital Record is the only sole document that contains my truth.

The law currently does not support this action of a simple amendment do to the fact I am an adoptee. Myself and other adoptees would like the option to have a truth vital record. This can simple be done with proven DNA truth.

An adoptee should be not only allowed to their record but having a truthful record with integrity.

Let's have the uncomfortable discussion and find away to make this allowable for those that desire the truth. A Vital record should hold truth and integrity.

Sincerely,

Ann E Weaver-Meldndy
