

Submitter: Leonard Sutton

On Behalf Of:

Committee: Senate Committee On Human Services

Measure: SB420

Throughout my 70 yrs, I have had occasion to observe several cases where those with brain injury or other brain damage APPEAR to be hopeless cases, but with good care, have made far greater progress than we thought possible. I strongly support any work that Oregon can help with in this area, to help as many of these types of situations as possible.

Thanks for considering this type of effort.
