

Submitter: Calista Songstad
On Behalf Of:
Committee: House Committee On Education
Measure: HB2281

Vote No on HB2281

Oregon schools need to have their priorities shifted back towards core classes until OR students are graduating able to score comparatively to students across the country. The students deserve for allocated funding to be put into smaller head count classrooms for these core classes. Please demand accountability from ODE on the failing test scores instead of entertaining an ask for funding for yet another politically motivated idea outside of the publication's scope.
