

Submitter: Laura Borges

On Behalf Of:

Committee: Senate Committee On Human Services

Measure: SB420

I am in support of SB420. As a parent of a child who had a brain injury when he was 16, it would have been incredibly helpful to know what resources were available at the time. Instead, we were faced with one of the biggest nightmares a parent could go through, struggling to find ways to help your child navigate a complete change of life, loss of dreams (for all members of the family) and finding ways to grieve the many things now lost.

Many doctors are clueless as are many therapists on how to really deal with brain injury. The few you find are worth their weight in gold; they help you understand better the situation as well as bring a realization that there is very, very little help or knowledge to be found.

Please help us find hope through SB420.

Thank you,

Sincerely,

Laura Borges
