

Submitter: Kim Elliott

On Behalf Of:

Committee: Senate Committee On Human Services

Measure: SB420

Dear Members of the Senate Committee on Human Services:

I'm writing to communicate my strong support of SB 420, providing resource navigation to Oregonians with brain injury.

As a Speech Language Pathologist, I have worked with many survivors of brain injury and I am in support of SB 420. This bill is long overdue and will help all Oregonians with brain injury and their caregivers receive better access to the support and services they need. Survivors of brain injury have incredible challenges navigating complex systems and the care and support they need immediately after injury is crucial to their long term outcomes. This is especially critical for those from systemically underserved communities.

I request that you support SB 420. Brain injury resource navigation will be life changing for so many.

Signed,
Kim Elliott
