

Submitter: Thomas Busse

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB643

Removing state restrictions on cottage food is good public policy. This is a good bill that doesn't go far enough (homemade cheeses! Please!), but it is at least a start.

I would expand the bill to include:

1. Extracts
2. Nut Butters including Hazelnut butter and spreads
3. Vinegars and mustards
4. Nondairy frostings and icings

Second, regarding limits on sales to vague "institutions" - I would explicitly allow sales to:

1. Airports
2. Museums and Cultural Facilities
3. Visitor centers of state parks and recreation areas.
