

Submitter: Ruth Njoroge

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2495

Exception is required due to some client requires close supervision from the staff due to some their risk behaviors toward others, risk for elopement and putting their health in danger. I have a client who attempts to elope at midnight 1AM anytime, client is forgetful and confused not aware of whereabouts. If that client does not have 1:1 exception his life will be in danger . Client can be hit by a car also client has unsteady gait due to medical issues.
