

Submitter: Lucky Doe

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2495

I oppose this hearing as this will be very difficult for adult foster owners as it is right now its still hard to thrive I the business as the cost of living and the recession has really hit hard.This business is quite difficult especially with a population with different challenges thus they can never be treated equally that's why every resident has there own care plan dictating there care needs.
