

Submitter: Susan Mbugua

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2495

I am a care provider and I am against this bill because it will negatively impact the adult foster home business . The rising costs of maintaining and operating care homes has risen in the past few years . The proposed rate changes will not cover for staffing and if passed we may have to close down the homes . This will vulnerable residents with no where to and drastically impacting access to care and increase healthcare and housing disparities.
