Measure: SB498

As a multi generational farm in Linn County Oregon ~ We are in support of SB498. Having experienced e financial burden experienced during the passing of farm ground from generation to generation and the worry and potential tax expense upon the transfer of estates, we are corned that at so point without a Bill such as this, a generation will have no choice but to dissolve a family heritage due to the burden of estate tax. We are hoping to pass our farming onto the next generation but sometimes the “desire to” and the “reality of” are unobtainable without these bills that give us some protection. I ask for your support in helping us to remove obstacle that may prevent this from happening.
