

Submitter: Bonnie Stratton

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB579

Persons who have been convicted of crimes against their fellow citizens abrogate their right to live in a free civil society which is based upon mutual respect for the rights of others and must suffer the consequences of their actions as provided by the rule of law. Those Oregon state senators and representatives who would introduce and support this reckless legislation are attempting to reward criminals who perpetrate murder, violence, civil discord and chaos upon law abiding citizens in order to bolster their voting bases and guarantee their control over the processes of Oregon state government.
