Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2616

I'm fully in support for this bill. We have been getting our raw goat milk from a local farmer for over a year. We have multiple lactose intolerant family members and this milk is much easier on our stomachs! It's so important for my family's and many others to feel the connection with where our food comes from. We need to support our local farmers because they such are a large part of community.
