

Submitter: Beck West

On Behalf  
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and  
Water

Measure: HB2616

As a longtime raw milk consumer, I am in support of this bill. Raw milk sales have increased over the last 2 decades while the number of foodborne illness from raw milk has not increased and, in some cases, has gone down. Testing is more effective so that raw milk is safe and clean. This bill only helps commerce as more people will have access to the sale of raw milk if they so chose. This will help farmers stay in business and put more money into our economy. Please support this bill.

Thank you kindly,

Beck West
