Water

Measure: HB2616

Greetings to everyone!

I would like to share my experience with dairy product. My son and I can't drink or eat any dairy milk from the stores, for all products are pasteurized. However, we can consume any dairy which wasn't homogenized, pasteurized, or both. I have been buying raw milk from the farmers and feeling very pleased, for we get to choose the right diet for our family.

I am strongly supporting the idea of allowing farmers to continue selling the raw milk. Farmers are hardworking people and producers of great food! There are a lot of people in this state, who are supporting the idea of selling a raw milk.

I hope that peoples' voice is going to be taken to consideration, and farmers will be allowed to continue selling an amazing product such as a raw milk.

Thank you!
