

Submitter: Travis Thompson

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB2909

This funding would help continue to promote our local fisheries throughout the Oregon coast. Continuing to spread awareness about how our local seafood's are sustainably caught will drive more revenue to coastal towns. Local restaurants, local fish markets, and any business that sells a seafood product will benefit from increased ad dollars.

I encourage you to vote for this bill, giving our precious resource the much deserved marketing it needs.
